RMR Weekly E-News

Hello RMR Faithful!

Colorado weather at its finest. Sunny today and snowy tomorrow...what else do you expect? They say in Colorado, if you don't like the weather, just wait a few minutes and it will change.

The moisture will be just what the doctor ordered for the grounds at RMR. It is already greening up and the winter wheat is growing like crazy. A great start for the summer planting time, which is just around the corner!

If you are not on our regular E-News list and would like the weekly wisdom from Rocky Mountain Roosters, email me and I will add you to the list. Our E-News is also on our website too, under the newsletter tab and weekly news.

Commemorative Memory Book and DVD

TWO FOR THE ROAD

First-year students at Florida's Vet School were attending their first anatomy class, with a real dead cow. They all gathered around the surgery table with the body covered with a white sheet.

The professor started the class by telling them, "In Veterinary Medicine it is necessary to have two important qualities as a doctor: The first is that you not be disgusted by anything involving the animal body".

The Professor pulled back the sheet, stuck his finger in the butt of the dead cow, withdrew it and stuck his finger in his mouth. "Go ahead and do the same thing," he told his students. The students freaked out, hesitated for several minutes, but eventually took turns sticking a finger in the dead cow's butt & sucking on it.

When everyone finished, the Professor looked at them and said, "The second most important quality is observation. I stuck in my middle finger and sucked on my index finger. Now learn to pay attention. Life's tough, but it's even tougher if you're stupid!"

+++++

Two kids were deciding what game to play. One said, "Let's play doctor."

"Good idea," said the other. "You operate, and I'll sue."
